Objective

Motivated Computer Science and Engineering student seeking a Software Developer role where I can apply my programming, problem-solving, and web development skills while continuously learning and contributing to organizational success.

Education

Degree	Stream	Institution	Year	CGPA/%
B.E	Computer Science and Engineering	Mailam Engineering College	2023–Present	8.91
HSC	Bio-Maths	Holy Angel Matric Hr. Sec. School, Rettanai	2022	92.6%
SSLC	–	Holy Angel Matric Hr. Sec. School, Rettanai	2020	86%

Technical Skills

Programming Languages: Java, C, Python, JavaScript

Core Concepts: Object-Oriented Programming (OOP), Data Structures, Problem Solving, JDBC

Tools: DBMS, GitHub, Eclipse

Soft Skills

- Teamwork
- Leadership Quality
- Communication
- Adaptability

Projects

Sentiment Analysis Using Python

Developed a sentiment analysis application using Python and Natural Language Processing (NLP) to classify text into positive, negative, and neutral sentiments.

Resume Analysis Using Python

Developed a resume analysis application using Python that extracts resume content, analyzes skills, and provides suggestions to improve resume quality.

Weather Application Using HTML, CSS, and JavaScript

Developed a responsive weather application that displays real-time weather information for any city using a weather API with a user-friendly interface.

Internship

UI/UX Design Intern

August 2025 – September 2025

Aspivox Technologies

Designed user-friendly interfaces using Figma and Adobe XD, focusing on intuitive and responsive user experiences.

Area of Interest

- Software Development
- Full Stack Development
- Web Development
